NIGHT SWIMMING

For your information, in 2018 Orange County implemented a new regulation that required the terms “NIGHT SWIMMING” on Lodging Property’s permits.

There was not a change in the permit (other than the layout and the added description) and the permit would have been issued based on how it was originally permitted when constructed.

In order to change the permit to allow night swimming, the Lodging Establishment must have the following completed:

- Hire an electrical contractor (not an electrician) to come to the property at night
- Provide a map of the pool and spa and take a series of light readings above the surface of the pool, pool wet deck surface and spa
- Determine the square footage of the pool and assess the pool lighting provided in the pool in relation to the square footage
- Provide a summary of this information and a copy of the
letterhead that specifies the above measurement
- Provide this information to the Health Department to update the location permits
